Dear Sir or Madam,

    I am a graduate student in the Computer Science department at ASU, having a professional experience of three and half years at Samsung Research Institute Delhi, India. I would bring my tenacity and penchant for success to your organization. As such, here are my skills that makes me a good fit for the position:

● Working for MNC has inculcated me with good communication skills, time management and punctuality.

● Familiar with the design, development, test, and release cycle of the software.

● Qualified Professional level C++ certification exam as a Samsung employee and have an in-depth understanding of data structures and algorithms.

● Competent in HTML, CSS, JavaScript, Python, React, and web technologies as I have worked on web app development (Hotstar and JioCinema) that are currently available in Indian Market.

● Having been working in the Blockchain Research Lab at ASU has helped me to learn and grow in multicultural environment.

● Filed patent (IN application number: 202011049495) in the machine learning and voice assistant domain.

I believe that my skills are a good fit for the available position. You can find a detailed version of my profile on the attached resume. I look forward to hearing from you. Thank you for your time and consideration.

Best Regards,
Anil Kumar
